Based on the philosophy of Shungetsu Harmony, the treatment incorporates fragrances selected in accordance with the rhythm of the seasons, the phases of the moon, and the balance of the Five Elements. In Japan, there has long been a tradition of appreciating fragrance. During the Heian period, aristocrats practiced Takimono-awase, a traditional Japanese incense appreciation ritual in which different fragrances were compared and enjoyed. These fragrances were later passed down as the Six Classical Incense Blends (Mukusa no Takimono), which remain symbolic of Japanese fragrance culture. At Yasuragi, these traditional fragrance names inspire the use of delicate Japanese essential oils together with carefully selected botanical oils from around the world, creating a tranquil moment of relaxation.
